

Apor Vilmos Catholic College – Erasmus+ Course

Course title: Family Pedagogy

Credit: 3 ECTS

Course description:

The aim of this course is to give basic knowledge and introduction to the theory and the practice of family pedagogy as a science and as an applied field of pedagogy. In the group we learn about the most important questions of family pedagogy (eg.: family as a support system, family life-cycle model, normative crisis and paranormative crises, pathology in family) and we also make a self-experience based little demo about the methods of family therapy. Students are asked to do a genogram (family tree) and a short presentation from the literature of family pedagogy.
