Method of assessment: term mark Other means of learning evaluation: <ul style="list-style-type: none">• continuous, active participation during lessons• preparation of ppt presentations for use in classroom• completion of preschool activity plans• assessment of students' research findings shared on project websites• assessment of student participation in international projects	
Place of subject in the curriculum: 4 th semester	
Prerequisites: none	

Course description:

The aim of training of this course is to provide comprehensive knowledge about the components of British civilisation and culture (geography, history, art etc.) from a Christian perspective. We lay particular stress on practicability targeting at the acquisition of an intercultural competence which enables the student to work creatively and cooperatively with students living in different countries and/or having different cultural backgrounds.

- Intercultural dialogues; analysis of cultural incidents; understanding cultural differences; developing efficient communication with students from English-speaking countries. Familiarization with English-speaking culture and thinking through literature, through participation in international projects and through international good practices of pedagogical methods and tools.
- British civilization (geography, history, demography etc.)
- British culture (art, media etc.)
- British literary history
- British traditions

- Christianity in Great Britain
- A broadened perspective: the cultural characteristics of the former British colonies

Required competencies and competency elements that this subject contributes to and helps to develop

a) Knowledge

- Possesses the expert knowledge and teaching methodology which help to develop the personality of children aged 3-7 in a harmonious complex way.
- Plans and organizes educational activities in English and applies appropriate psychological and pedagogical methods of child development.

b) Capabilities

- Adapts his pedagogical, psychological, sociological and methodological expertise as well as a holistic approach to the English language preschool education with consideration to the characteristics of the child and the child's age group.
- Understanding the characteristics of the age group, the student should be able to identify and select the appropriate educational goals, tasks and content. The student should furthermore be able to manage, analyse, evaluate the differentiated pedagogical process.
- Builds and develops a bias-free respectful and trustworthy relationship with children institution (such as families, nurseries, childcare services, and other public educational institutions). Communicates professionally and clearly in professional situations and assists and offers help relating to the problems of children.

c) Attitude

- Committed to developing strategies, methods and activities promoting the organization and expansion of the the 3-7 year-old age group's experience and knowledge, and to creating an environment promoting the success of English language communication in educational activities while inspiring, confirming the development of the child's personality.
- The student's personality is free from prejudice, and is characterised by tolerance, social sensitivity and helping attitude. The student has an inclusive and multicultural approach, seeks to preserve the cultural identity and supports the child's integration into his

community.

- Accepts the child-centered inclusive preschool education and the view that pedagogical strategies used in preschool education should be tailored to the child's personality.

d) Autonomy and Responsibility

- Takes responsibility for children aged 3-7, for the whole group of children, for his activities within the institution, for the decision made during the planning of the educational process and for all the consequences.
- As a reflective preschool teacher and autonomous personality he is a conscious leader of his own professional development.
