**Course description:**

The lectures introduce to the conceptual and institutional system of pedagogy and teacher training. The target system of the teacher and pedagogy and its changes in the 21st century, its past and present role in society are treated as a prominent issue. The division of labor and points of contact for raising children are discussed in the triad of family-community-institution, with special emphasis on the elementary education of institutional education at elementary level. The course covers the tasks and possibilities of talent management and catch-up, integration, including supporting professions and institutions in the field of child protection and professional services. The task of the course is to introduce the students to the teachings of the Catholic Church on education, to the specific aspects of the pedagogic concept of Christianity, and to the pedagogical practices and systems of church institutions.
